WHAT STMS DOES FOR YOU

LESS ADMIN. MORE ATHLETICS.

Everything a busy club needs in one place — so your evenings go to coaching, not to spreadsheets.

ATTENDANCE THAT TAKES ITSELF

Athletes check in from their phone as they arrive. You watch your squad fill up live, and the attendance record builds itself — no clipboards, no roll calls, no chasing anyone afterwards.

94%

SQUAD ARRIVED

- Amina K. just arrived
- Jonas M. just arrived
- Sofia R. just arrived

WORKS EVEN WITH NO SIGNAL

Basements, indoor tracks, away fixtures. Your session stays on the screen and everything catches up the moment you're back online — you'll never notice the difference.

Underground tracks Away fixtures Airplane mode Rural venues

PLANS THAT BUILD THEMSELVES

Describe the session you want and STMS drafts it — warm-ups, main sets, volumes and all. Save it as a template once and reuse it across any squad, in any club, forever.

SUGGESTED WEEKLY LOAD

PROGRESS YOU CAN ACTUALLY SEE

Personal bests, attendance streaks and training load turn into clear charts. Spot who's flying, who's flagging, and who needs a quiet word — in seconds.

100m PBs this season	12
Athletes improving	86%
Sessions completed	1,284

EVERY CLUB, ONE LOGIN

Run three clubs or thirty. Switch between them with a tap, keep each club's people and plans completely separate, and compare how every location is performing.

North Athletics East Sprint Squad Central Endurance + your clubs

EVERYONE SEES THE RIGHT THING

Coaches see their squads. Club admins see their club. Athletes see only their own plan and progress. You decide who gets access to what, and you can change it any time.

YOU (CLUB OWNER)	COACHES	ATHLETES
Everything across all your clubs	Their squads, sessions and notes	Their own plan and personal progress

HOW IT WORKS

UP AND RUNNING TODAY

No training days, no migration headaches. Four steps and your club is live — with your whole season in front of you.

01

CREATE YOUR CLUB

Sign up, name your club and invite your coaches. Most people are done before their coffee cools.

- Takes about 2 minutes
- Add as many clubs as you run

02

ADD YOUR ATHLETES

Upload a spreadsheet or add people one by one. Every athlete gets a link to join from their phone.

- Bulk import from CSV
- Athletes join themselves — no admin work

03

BUILD YOUR FIRST SESSION

Start from a ready-made template or build from scratch, then drop it onto the calendar for the right squad.

- Reusable session templates
- Assign to squads, groups or individuals

04

RUN IT AND WATCH IT IMPROVE

Athletes check in from the track. Attendance, load and personal bests appear on your dashboard automatically.

- Live attendance, zero roll calls
- Suggestions to improve next week

THE PLATFORM

A COMMAND CENTER FOR COACHES

This is your Monday morning: who's turning up, who's improving, and what to change this week — all on one screen, readable at a glance.

app.stms.io/dashboard

MADE FOR YOUR WHOLE CLUB

ONE APP, THREE JOBS

Everyone in your club gets their own view of the same information — no more group chats, shared spreadsheets or missed updates.

MOST USED

FOR CLUB OWNERS

RUN THE WHOLE CLUB FROM YOUR POCKET

See how every squad is doing without asking anyone. Spot the groups with falling attendance, keep an eye on coach workload, and handle memberships in a couple of taps.

- See attendance and performance for every squad at a glance
- Invite coaches, set what they can access, remove them instantly
- Manage memberships, squads and billing details in one place

FOR COACHES

SPEND YOUR TIME COACHING, NOT PLANNING

Build a session in a minute from a template, share it with the right squad, and let attendance and results fill themselves in while you're on the track.

- Plan a whole week for a squad in one sitting
- Watch attendance fill in live — no roll calls, ever
- Leave notes on an athlete and see their full history

FOR ATHLETES

KNOW EXACTLY WHAT YOU'RE TRAINING TODAY

Open the app at the track and your session is there — exercises, sets, targets and how you're progressing. It works even with no signal.

- Follow your session step by step, offline if you need to
- Watch your personal bests update automatically
- See your own attendance and improvement over time

KEEP PARENTS AND SUPPORTERS IN THE LOOP

Share schedules and results with the people who care about them — without giving away the keys.

INCLUDED ON EVERY PLAN

SMART COACH

AN ASSISTANT COACH WHO NEVER SLEEPS

Smart Coach watches attendance, training and progress across your clubs and quietly suggests what to change next week. You get a short list — you decide what to use.

- Spots when someone is doing too much — before it becomes an injury
- Suggests small changes that make the week run better
- Learns how each of your athletes responds over time

LOVED BY CLUBS

COACHES WHO STOPPED CHASING

From single-squad clubs to groups running five locations — here's what changes in the first month.

“

6 HRS SAVED WEEKLY

I used to spend Sunday nights building spreadsheets for three squads. Now I open STMS, the sessions are there, and attendance has already filled itself in.

MK

Maya Kovács
HEAD COACH · NORTH ATHLETICS

“

4 CLUBS, ONE LOGIN

Running four clubs used to mean four systems and a lot of copy-paste. Everything lives in one place now, and I can finally compare how each club is performing.

DO

Daniel Osei
OWNER · VELOCITY ATHLETICS GROUP

“

WORKS OFFLINE

I open the app at the track, my session is right there, and it works even when the signal doesn’t. I actually know what I’m training and why.
